## HUDSON'S FATE NOW

### IN HANDS OF JURY

Great Crowds Have Attended Trial of West End Murder Case All Week.

An immense crowd of spectators has gathered in the court house at each session of the trial of Henry Hudson for the killing of Yates W. Burton, mention of which has frequently been made in these columns. Over 100 witnesses were from the counties of Wayne, Pulaski and Lincoln, and these together with friends of the dead man and his slayer and the crowd of spectators, which included many ladies, made the court house full and sometimes overflowed it.

At the close of court Thursday afternoon it was announced by the attorneys that evidence was all in, and Judge Charles A. Hardin stated that a session would be held that night. Judge W. R. Cress, for the defense, and K. S. Alcorn, for the prosecution, spoke, each occupying an hour's time. This morning Judge Virgil P. Smith, for the defense, Hon. Ed. Morrow, for the prosecution, and Hon. John Sam Owsley, for the defense, occupied the attention of the jury. Court adjourned for dinner at the conclusion of Mr. Owsley's effort, and Commonwealth's Attorney Puryear made the closing speech this afternoon. Probably not in the history of the county have six able arguments been made in a murder case.

It took all of Tuesday and until 9:15 Wednesday morning to secure a jury and some 80 men were examined. Following is a list of those secured: W. C. Alford, J. H. Wheeler, R. E. Horton, Mack Petrey, W. H. Higgins, W. H. Leece, Wm. Landgraf, Spears Fisher, Luther Johnson, A. C. Sine, W. R. Brummett, George V. Hall.

Hon. O. H. Waddle stated the case for the Commonwealth.

Space forbids giving the testimony of all the witnesses but the salient points of the more important ones follows:

Grover Ard was the only witness to the killing, said Mrs. Hudson, who is denied by law the right to testify for or against her husband, said: "I accompanied Burton to the Hudson home, having driven a team from the former's home in Wayne county. Burton followed me on horseback. We got to the Hudson home at about 8 o'clock and Mr. Burton, who is my uncle, and with whom I have lived many a life, knocked at the door. We having first put down our things, he called for Mrs. Hudson's wife and she came calling her name. She entered the room and into a front room to the right. Burton made a fire in the grate. He heard Hudson make no statement when they entered the house. Speaking to his daughter, Burton said they wanted a room, that he had come to do some work and settle up the partnership business, that they had brought their own bedding and provision with them. Mrs. Hudson offered to cook them supper and told them to use the things in the room. But Burton said no and asked that what she had in the room be taken out. His wishes were complied with. Mrs. Hudson made the dresser and several pieces of furniture from the room. The first thing I heard Hudson say was, 'You are entitled to half of this house and not a G-d-d-m bit more.' Burton cursed Hudson and they passed several choice epithets. Hudson was in the other room at the time. Burton, who was then sitting by the fire with a lantern in front of him, picked it up and turned and stooped to set it down when a shot was fired and Burton went toward the door. The shot followed and I caught hold of Burton and eased him to the floor. I then entered Hudson's room and told Hudson that he had killed the best friend he had ever had. Hudson said 'G-d-d-m you, I'll kill you.' He then drew the fire and shot at Burton. He was not fixing to shoot and was not doing a thing. He had no gun in his hand and had made no attempt to draw one. We had taken four drinks of the quart jar of peach brandy Burton had and neither was the least intoxicated." Ard reiterated very emphatically that Burton was picking the lantern off the floor when the first shot was fired.

Garvil Burton, son of the deceased and who is his father's son, testified that his father was 49 years old, weighed 225 pounds and was five feet eleven inches tall. He left a wife and ten children. His estate is valued at \$35,000.

James Richards, who married a daughter of Burton, but who is divorced from her now, stated that in the summer of 1912 while he and his wife were at Hudson's home the two were engaged in conversation about the barn, when Hudson complained that Burton had money, but had never helped him with it. Richards said he told him he wanted no money, that he could make his own living, when Hudson said: "We can get some of his money by making away with him." Cross examined, he said that he had never told his wife about this, nor had he said anything to Burton, fearing that it would cause trouble.

George Butler swore that Hudson had approached him for the purchase of a pistol a week or so before the killing. He had none to sell.

Claud Hughes testified similarly. Sheriff Jasper of Pulaski, swore that Hudson came to him after his examining trial and told him he wanted him to help him in his case, that he, Jasper, knew how to destroy a man, he having had experience. The officer declined to aid him.

At this point the Commonwealth rested its case and Judge Virgil P. Smith, of Somerset, made a statement for the defense.

Hudson Takes Stand.

The defendant was next witness introduced. He said he was 37 years old and had lived in Lincoln and Pulaski counties.

With Cobb and Crawford going great guns, Detroit fans contend the Tigers will win the Coveloski, Daus and Pube will oblige by performing like regular pitchers.

laski most of his life. He and his father-in-law, Yates W. Burton, fought the Bennett Cloyd farm together of A. W. Carpenter. He said that Burton got mad at him because he would not loan him \$400, his share of a load of cattle he had sold in Cincinnati and had cursed him, saying "G-d-d-m you, you have no accommodation about you." He did not resent this. Burton left his house early the next morning without speaking to him. Asked about his conversation with Sheriff Jasper, concerning the jury that was to try him, Hudson said: "I had heard that Garvil Burton, son of the deceased, remarked that there was no such thing as justice where there was a plenty of money and that he intended to see that my life paid the penalty of the crime I had committed," and I wanted Jasper to see that the jury tried me was not tampered with. I did not mean that I wanted him to try to buy the jury."

Defendant did not know that Burton was coming to his house on the night of the killing, but admitted that he had dictated a portion of a letter introduced by the prosecution, in which it was stated that he, Hudson, had rather not do business than do so on any other terms. A note with Burton's signature was introduced, in which he stated he owed a joint note of about \$2,000 and when the banker sent the note to Burton to sign, he at first refused to sign it. He did so later, however. "I did buy a pistol from T. Butler and wanted it for protection around my home. I sold a month before a pistol that I had had for some time," said Burton in answer to what he wanted with the pistol about which Butler and Hughes testified. "On the night of the killing," said Hudson, "I was in one of the rooms of our sleeping room with one of our children. My wife was in the other with the two other children. I heard Burton call to my wife, and did not go to the door to admit him because he had not called me. He seemed to want to see my wife, but I was not mad at him. My wife got up and lighted a lamp and went to the door, Burton and Ard came in and went to the room across the hall from our bed room. My wife offered to get supper for them and told them to use the things in the room, both of which they declined. Burton saying 'I want to use my own things; I want nothing to do with the G-d-d-m black son of b--h.' I said you are another Burton then told me I should not stay on his place and I told him he would have to show me. I heard him step as if coming toward my room and I shot three times. He fell toward the window of his room. I thought he was going to kill me and I shot at him. He fell in the room and Burton reaching in his inside coat pocket for his pistol, which he most always carried and believed I was in great danger. I used a .38 calibre Smith & Wesson double action revolver. Asked if he knew Burton's reputation, he said he did and that it was very bad. "What did you do after the shooting?" was asked. I went to the machine drawer from whence I got the pistol and got three more cartridges and filled the revolver. When I returned to the room, I saw Burton lying on the floor. I did not tell Ard that I would kill him; never thought of such a thing. I asked Ard if he had gotten Burton's pistol and he said no. I stayed in my room and out in the hall the balance of the night. Was not in the room with the body at all. Never had any such talk with Richards as he swore that I had. Richards and his wife frequently came to my home and stayed for weeks at a time."

Russell Hudson, ten-year-old son of defendant, swore that he was sleeping with his father and that the first shot awakened him. He looked up and saw him with both hands gripping a pistol and heard two shots. He saw his father with the dresser and several pieces of furniture from the room. The first thing I heard Hudson say was, "You are entitled to half of this house and not a G-d-d-m bit more." Burton cursed Hudson and they passed several choice epithets. Hudson was in the other room at the time. Burton, who was then sitting by the fire with a lantern in front of him, picked it up and turned and stooped to set it down when a shot was fired and Burton went toward the door. The shot followed and I caught hold of Burton and eased him to the floor. I then entered Hudson's room and told Hudson that he had killed the best friend he had ever had. He had no gun in his hand and had made no attempt to draw one. We had taken four drinks of the quart jar of peach brandy Burton had and neither was the least intoxicated." Hudson Takes Stand.

The defendant was next witness introduced. He said he was 37 years old and had lived in Lincoln and Pulaski counties.

With Cobb and Crawford going great guns, Detroit fans contend the Tigers will win the Coveloski, Daus and Pube will oblige by performing like regular pitchers.

F. L. Barker lived three miles from Burton and has known him for several years. His reputation when drinking was that of a troublesome man, but that he had never heard of his arrest for any cause. He too was against Burton in a school fight in his neighborhood.

C. C. Trimble, a Pulaski county farmer—preacher, had known Burton for years. Had heard people say that he was a dangerous man when drinking. Never heard of his being arrested.

J. W. Gover, age 73, of Pulaski, lived on adjoining farm to Burton. He considered him a dangerous man when drinking. He and the dead man had had a controversy over a pass way.

Frank Molen said that he had lived for several years in sight of Burton's and that his reputation when under the influence of liquor was bad. He thought that from what he had heard his neighbors say that Charles Ard's reputation was "pretty good." He admitted that he had had some differences with the deceased.

Frank Wilson, a Pulaski farmer, had known Burton for 19 or 20 years. He thought his reputation was not good when he had whisky in him. Had heard several of his neighbors say so. The following gentlemen testified to the good character of Y. W. Burton, several of them also declaring that Grover Ard, who was with him when he was killed, and James Richards, who told of his conversation with Hudson in which he said the could get some of Burton's money by doing away with him, were of reputable characters: G. A. Eubanks, M. C. Combest, J. S. Shadon, H. E. Graybeal, T. L. Carpenter, R. C. Dick, G. C. Gossett, John Buck, C. Lins Moore, P. Beshearer, V. S. Brown, Stanley Stephenson, J. S. Gossett, Charles Cundiff, J. T. McGahan, J. C. Ogden, J. D. Burton, John McKinney, Chris Compton, W. H. Lair, Rex Reid, E. Jasper, J. Hines, Sheriff Cooper, George Waddell, Sheriff J. B. Jones, S. S. Morrow and others. These gentlemen represent various localities in the counties of Lincoln, Pulaski and Wayne, and their endorsement is worthy of consideration.

Cliff McAninch, of Casey, swore that Burton gave him a drink Sunday afternoon of the killing; that he, Burton, took none and was not intoxicated.

Miss Annie Routen testified that Grover Ard came to her home on the night of the killing and that he was not drunk.

The attorneys and court officials are very complimentary over the splendid deportment of the gentlemen composing the jury. Sheriff Weatherford says that he has not had to even make a suggestion to any of the jury all seem to realize the responsibility of their position.

## LATEST WAR NEWS.

Something big and new is about to develop in the war, something that will have a vital effect in its length and the decision of the winner. Just what this is, no one can tell, but the ones guessing. There are those who claim that before many more weeks when Count Zeppelin is ready—but not until he is ready—a great fleet of Zeppelins is going to rise out of the naval base some night and quietly sail over England and literally rain dynamite and other explosives on London left. The fact that England is buying a new type aircraft—a Zeppelin, destroyer—seems to give color to the rumor that the British Foreign Office is deeply afraid of this very thing, and is grasping at any straw to get ready. The Zeppelin raids thus made, in spite of their apparent failure, have convinced the military and naval authorities that they were not to be taken lightly. They were not to be taken lightly by Senator Malissa Martin, mother of the late Senator, and at Lexington were joined to Lexington by Senator J. B. Hubble, parents of the late Senator, by Miss Lenell Eubanks, daughter of Mr. and Mrs. M. E. Eubanks, of Danville, and cousin of the bride, who were present when the ceremony was said which made this happy pair one.

Both the bride and groom are very popular with all who know them. She is a very attractive and accomplished young lady, and won the first prize when a student at Hamilton College for the best housekeeper. The groom is a prominent young business man of Stanford. He recently sold out his interest in the firm of Hughes & Martin and has since been engaged in the concrete business here with Bey. Rout. After a wedding trip to Louisville and other points, Mr. and Mrs. Martin will return to Stanford to make their home.

Conflicting reports are made as to the time of the crew's escape. The sinking of the Falaba to leave before it was sunk by the submarine, but all English reports state that it was torpedoed before all had time to leave.

Germany is sending a new army to the aid of Austria in the Carpathians, and is causing the state Department some agitation. The propriety of such loans is questioned by President Wilson and his cabinet. Legally no objections can be made to such loans, though at the beginning of the war the President frowned on such loans, by French, an American and other nations are being treated alike in the matter of loans is expected to put them in a different light, especially as most of the money is to be advanced in this country for the purchase of supplies, and will keep American workmen busy.

The western theatre of war is getting to be an active one. During twenty days of recent fighting, 11,000 Germans were taken from captured trenches, by French, an Associated Press correspondent says. The French claim steady gains are being made. The Canadians are being heard from now, and the death notices are showing several names from the Dominion contingents.

## BINDER TWINE FAMINE

Is Threatened in Kentucky This Season, Says I. M. C. Representative

A binder twine famine this season threatens the Kentucky farmers as well as elsewhere, according to Hugh N. Noel, local representative of the International Harvester Company. From figures which he has been able to hurriedly gather, Mr. Noel believes that there is now practically no twine in either Lincoln or Boyle counties, and practically none in Garrard, though stores at Bryan, Appleton and Paint Lick have a supply on hand that will soon go, however, when the wheat growers learn what they are up against.

Mr. Noel has just returned from headquarters of his great company an order for 30,000 A substitutes from Charles P. Cecil of Danville, with the explanation that it is an impossibility to fill the order, at present and little chance in the future.

The constant warfare which has been going on in Mexico for the past two or three years is said to be responsible for the dearth of sisal of which the twine which is chiefly used for binding wheat, is made in this country. The sisal has been cultivated in Mexico for years, have been so busy fighting they have not had time to grow the sisal. A substitute for sisal in twine manufacture is Manila hemp, grown in the Philippines, but Mr. Noel says that it is improbable that a sufficient quantity of it can be obtained to tide over the shortage in twine this season.

Hustontville Gets Revenge.

The West End boys got full revenge here Wednesday for their overwhelming defeat which Stanford administered to them the week previous, by licking the local high school boys to the tune of 9 to 6. For a while it seemed that Stanford had the game sewed up, but the West Enders rallied and won out. The box score of the game was as follows:

## A Half Million Dollars

A half a million dollars is a lot of money isn't it? But we have more than half a million as a protection to those who do business with us. Don't you know we are going to take care of that half a million?

We will take just as good care of what you deposit with us.

### POLITICAL ANNOUNCEMENTS

The Interior Journal is authorized to announce the following candidates for office, subject to the Democratic primary, August 7th, 1915.

For Circuit Judge

C. A. HARDIN, of Mercer county.  
CHAS. C. FOX, of Boyle county.

For Commonwealth's Attorney

E. V. PURYEAR, of Boyle county.  
R. W. KEENON, of Mercer county.  
J. S. OWSELY, Jr., of Lincoln county.

For Railroad Commissioner

WM. F. KLAIR, of Fayette county.  
J. E. NEWMAN, of Nelson county.

For Circuit Clerk

JESSE D. WEAVER.  
MARSHALL C. NEWLAND

For Representative in Legislature

W. G. GOOCH.

Editor Harry Sommers says that this is not the time to inject the state-wide prohibition issue into politics; that it should not be brought into a governor's race and imperil the democratic ticket. Well, let's see about it, old friend. A legislature will have to submit the question to a vote of the people and legislative candidates are being elected this fall at the same time as a governor. A governor in sympathy with this great reform can do a great work with a legislature. The argument that the governor has nothing to do with the question is bosh. Look what Woodrow Wilson did with the legislature of New Jersey while he was governor in the way of forcing through reform measures. Kentucky must have a governor and a General Assembly who stand for the submission of this momentous question to a vote of the people, and now is as good a time as any for threshing the matter out.

Since Jan. 1st over fifty murders have been committed in New York City. The highest record was made Saturday when five lives were snuffed out. The police have made arrests in twenty-six cases. These cases are pending while in four other cases the prisoners were discharged. In four cases the murderers killed themselves, and in one case a burglar was shot by a policeman. The officer was exonerated. Life is distressingly cheap in the metropolis and seems to be growing cheaper day by day; to the discredit of the greatest city in the world, he said.

Dr. Ben L. Bruner tells the newspapers that he will announce in a few days for the republicans a platform for a dry platform. He says that he will not support the prohibition issue, but that he will support the platform of the republicans. He says that he will support the platform of the republicans, but that he will not support the prohibition issue.

Remarkable how influential and powerful (in the eyes of the political paragrapher of the Louisville Times) certain state editors and politicians have become since they have accepted his views in advocacy of a platform convention before a primary. Some, like ourselves, have been blacklisted from his notice or mention for years because we will not blindly follow his dictation in affairs political. But the minute they fall into line, how "influential" and "important leaders" they become. Excuse us, please.

The Richmond Register, Editor Pickle's paper, has been enlarged to an eight column quarto and otherwise improved, thus proving that business is good and that the newspaper game is lively in the city in which it is published. For years the Register was a nine-column folio and the reduction in the size of its pages is a reminder that the blanket sheet is well-nigh obsolete in modern journalism. More and smaller pages is the aim and desire of the newspaper boys now.

Anton Lang, who gained world fame by playing the role of Christ in the last two performances of the Passion Play in Bavaria, has hurried away to the front to kill and maim his men in the name of war. It is a pity that one who has appeared so creditably in the role of the Divine should change his calling to that of taking human life, and in so doing ne proves a versatility remarkable if not admirable.

The "Old Time Democrat" writing from Richmond on the "State-wide" question makes one almost conclude that Marse Henri has taken up his abode in that delightful little city. Perhaps the writer is an understudy of the greatest editorial writer in the South. Some expressions and quotations in the article make us imagine we see the grand old man penning the contribution.

Billy Sunday got after Unitarians in Patterson, N. J., and gave them such a raking over that they have secured a hall in which to answer his attacks. That won't cut any ice. Billy's magnetism will soon have that denomination going his way and dropping deucats into his already well-filled contribution basket.

### French Remedy for Stomach Troubles

The leading doctors of France have for years used a prescription of vegetable oils for chronic stomach trouble and constipation that acts like a charm. One dose will convince. Severe cases of years' standing are often greatly benefited within 24 hours. So many people are getting surprising results that we feel all persons suffering from constipation, lower bowel, liver and stomach troubles should try Marse's Wonderful Remedy. It is sold by leading druggists everywhere with understanding that your money is refunded without question if ONE bottle fails to give satisfaction.

Liquor licenses are being refused the dance halls in London by the magistrates in charge of this excise. Formerly they were awarded without question, even to halls in which dances were held only occasionally. "The present is no time for dancing, anyway," explained a magistrate in refusing an application for license "and if they dance at all they will have to be to the tune of a cup of coffee rather than to booze," said he. Gradually the whisky zone is growing smaller and smaller and the time seems to be coming when the whole kingdom will be dry.

Notwithstanding the saloons of Winchester pay into the city treasury \$15,000 yearly, the town is headed in debt, and provision is being made for making the merchants and other business men pay license. Must be bad management there. Stanford gets no saloon money, its business men pay no license, yet their debts are all paid and she had nearly \$7,000 in bank to start the new year with. But then, there are not many places in the country managed as well as the "best town on the map."

J. B. Cook, the well-known Somerset attorney, has been elected by the stockholders of the Somerset Herald as its editor. An excellent selection. Mr. Cook is a splendid christian gentleman, a man of affairs and a good citizen. His only drawback is his politics—he's a republican.

### COOPER TO HAVE BIG BREAD LINE

Proceeds From Sale of Celebrated Tanlac To Feed Poor

Louisville, April 7.—L. T. Cooper, the noted "Tanlac Man," will establish and maintain, at his own personal expense, a "bread line" in Louisville this winter. Mr. Cooper conceived and began executing this idea as quickly as he performed his remarkable relief work among the Dayton flood sufferers in 1913.

Louisville therefore, be unique in its relation with the rest of the country, because this city will have the only "bread line" outside of New York and maybe a few other larger cities of the world, where the plan has been established and is now maintained by the charitable organizations.

Mr. Cooper spent the afternoon looking over several available locations for the "bread line" and he will probably be prepared to state definitely by today just where the work will be carried on. He has also been in communication with local bakeries, and an agreement with reference to the bread and coffee supply has been practically reached.

Mr. Cooper, who is one of the most magnanimous of men has always been in sympathy with the poor and unfortunate. The "bread line" will therefore be only another exemplification of his nature. A large percentage of the profits from the sale of his celebrated preparation, Tanlac, the medicine that is accomplishing such remarkable results in cases of catarrh, indigestion and kidney troubles, will be devoted to charity and her children in this city.

Mr. Cooper, upon this great undertaking, said: "I have been in a position to help those who were less fortunate than myself, and in each city I visit I have invariably shown my sympathy for the poor by performing some service at my own personal expense that would bring a bit of genuine charity directly to them. I can, therefore, imagine nothing, among the several charitable plans I now have in mind, that will prove of as much benefit as a 'bread line.' The necessary details connected with the plan will be perfected by me this week."

Tanlac, the celebrated medicine now being introduced by Mr. Cooper, can be bought in Stanford at Penny's drug store.

Mr. Hugh Taylor of Buck Creek, was to see his brother, W. E. Taylor Sunday.

Mr. S. O. Proctor and family spent Saturday night and Sunday with his brother-in-law, Robert Brown at Level Green.

Miss Hester Weaver spent Easter with Miss Flora Taylor.

M. M. Taylor has been doing some repair work for Henry Scott.

Mr. Henry Scott, of Somerset has moved to his farm near here.

### Who Can Doubt Sworn Testimony of Honest Citizens?

Some time ago I began the use of your Swamp-Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. I was so bad at times I would faint away and had sinking spells. Finally a new doctor was called in and he said that I had kidney trouble and gave me medicine, of which I took several bottles. I obtained some relief from this but I was getting weaker all the time. I could not sleep at night so much that my husband and children had to lift me in and out of bed. After this time two friends sent me word to try Swamp-Root, which I did, and I am glad to state that the first dose gave me great relief. After taking the third dose I was helped into bed and slept half of the night.

I took several bottles of Swamp-Root and I feel that I owe my life to this wonderful remedy. The two family doctors said that I could not live three months. I would have to be helped in and out of the bed ten to twenty times every night. After taking Dr. Kilmer's Swamp-Root for two days I was entirely free from getting up and could sleep soundly.

MRS. D. E. HILEMAN, Tunnelton, W. V.

Personally appeared before me, this 11th of September, 1909, Mrs. D. E. Hileman, who subscribed the above statement and made oath that the same is true in substance and in fact.

# Kentucky Made Vehicles for Kentucky People at Wholesale Factory Prices

**Yes Sir:** We save you all Agents', Dealers', Wholesalers' and Jobbers' profits and commissions—we don't have traveling salesmen to stop at expensive hotels, and travel around on high salaries. Our entire business is conducted by mail—we have eliminated every extra and unnecessary expense. We are giving the vehicle buyers of this county the greatest values ever known. We manufacture right here in our own large factory as high grade vehicles as it is possible to produce and sell them to you at the wholesale price and save you all the "rake-off" of the middlemen.

**Send Postal  
Today for  
Big FREE  
Catalog**

## Here Is How Our Plan Hits the Middleman

We have sold hundreds of thousands of dollars' worth of vehicles and harness direct from factory to consumer, and every sale has been a clean-cut straight-from-the-shoulder SMASH between the eyes of some "middleman." We are sorry for this—we regret that our pathway to success should be strewn with wrecked hopes and thwarted ambitions of those who have tried in vain to hold us back. Personally we have nothing against dealers, agents, jobbers, mail order catalog houses and other middlemen, who seek to gather two or three profits, where we are satisfied with one—we are really sorry for them, because they are doing business in the wrong way. A vehicle or set of harness is never worth more than the factory price, and because we save you all the expense and profits of the middlemen, they should not grow peevish and throw things at Bohon, for neither I nor my customers and friends are to blame—it is simply the law of supply and demand at work. Folks will buy where they can get the most for their money. That's the whole matter in a nutshell. Our plan hits the middleman, because the vehicle users of this country have made up their mind to do business on the straight line from factory to user, rather than on the zig-zag line from maker through traveling salesmen, jobbers, dealers, agents or catalog supply houses to user. Is there a reason?

You must either buy directly or indirectly—you must either pay three profits or one profit on your vehicles and harness. When a dealer buys a vehicle, he buys indirectly and absolutely must pay two or more profits before he takes the vehicle from the crate. Now, if you buy of a dealer, you must not only pay these two or three profits, but in addition, you must pay the dealer's profit and also his selling expense extra—four profits in all. When you buy of us, you buy directly—you pay one small profit. Our price to you is less than dealers can buy vehicles for spot cash in carload lots. Don't let the price-boosting middleman throw dust in your eyes—find out for yourself—get the facts, then decide. If you do this, you will surely buy of Bohon and save agents', dealers', jobbers' and salesmen's commission.

Some people are pretty hard to convince, especially when they don't want to be. Like the old backwoodsman on his first visit to the circus for instance. He walked cautiously around the giraffe, looked the tall fellow up one side and down the other for about five minutes; then shifted his quid from one side of his mouth to the other, took off his glasses, wiped them carefully, and turning to the attendant said:

"Huh! There Ain't No Such Animal!"

That old fellow reminds me of the people who say "Bohon has no factory; Bohon's vehicles lack quality; made to sell, not to wear, etc."

The only difference is that the old backwoodsman was trying to deceive himself—he honestly thought his eyes were playing tricks—while the fellow who says, "Bohon does not make the highest grade vehicles in his own factory right here in Harrodsburg," is trying for a selfish purpose to deceive you.

Don't let the dealer, agent or middleman throw dust in your eyes. Get the FACTS—know for yourself, for any agent or dealer that tells you that we do not manufacture our vehicles right here in our own factory—does so in order to sell you a vehicle and pocket a big profit. We have here a factory equal in equipment to any vehicle factory in the United States—BAR NONE.

### Read What Customers Say

James E. Gray, Waterford, Ky., says: "My buggy arrived in Taylorville safely and without being damaged in shipment. Now, I want to tell you I am well pleased with it. I am sure I could have purchased no such buggy of any other firm or factory for a price so reasonable. It is not only well made and stylish, but is a very comfortable one and there is no doubt in my mind but that it will prove to be what it is guaranteed to be. All of the neighbors and friends to whom I have shown the buggy agree with me that it is the greatest bargain, and I suspect it will only be a short time until you will have some orders from this part of the country. I am going to do my best to advertise your splendid buggy, for I feel that you have proven a friend to me by sending such a buggy, therefore I shall encourage and make as many sales as possible to show my appreciation."

T. C. Williams, McDonald, Tenn., writes: "I received my buggy all O. K. and find it is a dandy one and everyone who has looked at it has passed a compliment on it. It is a well-built vehicle and I am well pleased with it. I hope that I may be the cause of your selling more in this country."

Edward Thornton, Fox Chase, Philadelphia, Pa., says: "I find my buggy sizes up to every feature you claim for it. It is very comfortable. I have ridden 25 miles at a time with no fatigue. I was somewhat pessimistic and inclined to take some of your strong assertions with precaution, not having purchased many goods from advertisements. From your manly, straight-from-the-shoulder correspondence, I was persuaded to send my order. I am fully convinced your method of doing business has been the secret of your success, and when next in the market for a carriage the order is sure to go to you."

A. F. Carpenter, Wolltown, Va., writes: "I received my buggy the first of September. Since that time have given it a thorough road test and find it exactly as you represented it to me. I am perfectly satisfied with it in every respect—in fact, I have seen none that equals it for a much higher price, and I feel I have value received for every cent of my investment."

Edgar M. Hunt, Sanders, Ky., says: "I like my buggy and harness fine. I like it better than any buggy I ever saw. Several people who have seen my buggy talk like they would order a buggy from you in the spring. You can use my name in advertising if you wish to do so. Please send Mr. B. K. Davis a catalog of your buggies, as he asked me to write you for one."

Emory M. McCord, Greenwood, S. C., writes: "We are more than pleased with the buggy you shipped us the first of June, and now it is December 6th, and every one who sees it wants to know where we got it. We have had a good many to ask how much we paid for it and they seem to be more than surprised at the price paid for such a pretty buggy. A friend bought a new buggy after we got ours and paid \$115.00 for it without harness. When we get ready for another new buggy we will not think of buying from anyone but you. I am sending you names of friends. I do hope you will be able to sell such a new buggy."

Marcus A. Whisler, Jamestown, Ind., says: "Buggy and set of driving harness received the 17th. Am well satisfied with both and must say that the harness and buggy are certainly made with great care, both workmanship and selection of material. I would like for your painter to send me some brown paint, just a very small amount to apply to a few places I notice have been marked by shipping. Any time I can be the cause of an order being sent you by my friends, I will consider I have helped both them and myself."

Lawrence Melugin, R. F. D. No. 1, Reeds, Mo., writes: "I am mailing you a picture of myself, horse and buggy which I bought from you some time ago. It isn't a very good picture, but maybe it will give you an idea. You never mind what the pictures cost for I think you have done me enough favors and gave me such a good bargain on that rig that the pictures shall not cost you anything. I am not in the habit of bragging on anyone, but I will when it is worth while."

## Thirty Days Free Road Trial

Life Long Guarantee Backed by Our \$30,000 Bank Bond

Every Bohon vehicle is sold on a thirty days' free road trial. We want you to try it as your own—submit to any test and then decide whether you want to keep it. Compare it closely point for point with other vehicles in your neighborhood, either in use or offered for sale, and if you are not fully convinced that we have furnished you the best made, the handsomest finished, the easiest riding and the lightest running buggy you ever saw, and if you do not think that by dealing direct with our factory you have saved at least \$25.00 to \$40.00—if in fact, for any reason you are not perfectly satisfied, and if the vehicle is not exactly as represented and in strict accordance with our claims—we will take it back and stand all the loss. If after the trial you keep it—as we know you will—you are absolutely protected against any loss or trouble resulting from defective material or workmanship—for if ever at any time—it matters not when, whether one, two, three, five or ten years—any piece or part proves imperfect, we will replace or repair it free of charge.

As an absolute protection to you, under this guarantee, we have deposited with the Mercer National Bank of this city, our legal binding bond for \$30,000, and if we ever make a claim under the guarantee that we did not carry out, we can be made to forfeit this bond. Just stop and think what this means to buy a vehicle under a life-long, unlimited guarantee, backed by a bank bond. If we did not make as fine vehicles as it is possible to produce—how could we make such an offer?

## OUR LARGE MODERN FACTORY

Our large, modern factory is just as up-to-date as any in the United States. We have every facility for manufacturing high-grade vehicles at the lowest cost of production. Please don't confuse our factory with some of the small repair shops here in Central Kentucky that possibly assemble one hundred vehicles in the course of a year, for we manufacture them by the thousands and sell them all over the United States, as well as in many foreign countries. We have every new labor-saving machine, every practical arrangement known. We have here as fine a collection of vehicle builders as was ever gotten together by any firm anywhere. They are men of

experience and ability, clean, moral and conscientious—they are men who like their work. Visit our office and factory if you can, and see for yourself how Bohon vehicles are made. Our factory is of personal and vital interest to you and every other vehicle user who wants to know the facts about why and how Bohon makes the best style vehicles, maintains the very highest quality and undersells the world. If every vehicle user in Kentucky really knew the truth and facts about the wonderful values we give—in spite of our already tremendous business—we would have to increase our factory, at least ten to fifteen times in order to supply the demand.

#### A Pounding But No Bones Broken.

A great pounding at the Methodist parsonage, but no one hurt—April 1st—all fools day happened to be a day of rejoicing at the Methodist parsonage at Moreland. We had announced that the Woman's Missionary Society would meet at our home, Thursday, April 1st at 2:30 P. M. There were about 25 of our good women of the Methodist church and Christian church and some that belonged to no church, remembered the preacher and family with a donation, which was highly appreciated. They brought ham, shoulder, potatoes, flour, groceries of all kinds and loaded the table until we were afraid of it falling down beneath the burden. It was a day not to be forgotten. As it was all fool's day, some of them wanted to have some fun and brought the parson a pair of shoes.

May the good Lord bless the donors and as they administer to our temporal needs, may He help me to administer to their spiritual needs. We shall never forget them and their kindness shown us on this the first day of April 1915.

Why Ladies Favor the Horse-Drawn Carriage

It is absolutely impossible for a lady to look dignified, graceful or beautiful in a modern automobile, unless the car happens to be a closed one—then the enclosure which protects the lady's dignity and beauty, at the same time hides those qualities from public admiration.

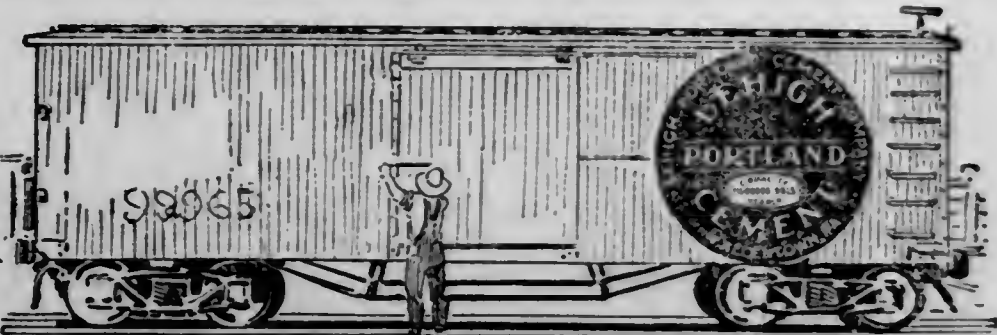

Undoubtedly one of the reasons why the finer grades of horse-drawn carriages are coming into use again in all the larger cities is because they give the women a chance to show their finery, their new hats and dresses; for as our lady friends have regrettably realized, the automobile affords them no such opportunities.

The buggy is one of Dan Cupid's best assistants, and every country bred young man is well aware of the fact.

**Deafness Cannot Be Cured**

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; time cases cured by the use of the Deafness Cure, which is nothing but an inflamed condition of the mucous surfaces. ### Heard About Town

P. C. Sandridge, of Milledgeville, was here Thursday.

Hon. O. H. Wadde returned to his home at Somerset Thursday afternoon. He was in too feeble health to remain in the Hudson murder case until its conclusion.

Cashier J. W. Hoskins, of the Peoples Bank of Hustonville, and Cashier George A. Prewitt, of the Commercial Bank of Liberty, were in the city for a brief period Thursday afternoon.

County Attorney W. S. Burch is still confined to his room with illness. He has been missed by many friends during the special term of court which has been going on this week.

Dr. J. T. Bohon, the mayor of the thriving little city of Kidd's Store, was a caller at this office Wednesday. It was the doctor's first visit for some time and the glad hand was extended by many an old friend.

Mr. Wade H. Walker, of Garrard, was here this morning returning from Hustonville, where he had been to attend a meeting of the Synod. Mr. J. B. Paxton, of this city, also attended the meeting.

State Senator Charles F. Montgomery, of Liberty, was here Tuesday. Asked if he knew anything of a political nature, he said: "Not a thing. I am practicing law now and fortunately I have been too busy to talk politics."

This office is in receipt of a post card from Clarence Coleman, of Louisville, who is touring the West. He was at Lincoln, Neb., and had just been out to look at the home of the Secretary of State William Jennings Bryan.

Walker, has been appointed local agent and is receiving subscriptions to stock.

### HELPFUL WORDS

From a Stanford Citizen.

Is your back lame and painful? Does it ache especially after exertion?

Is there a soreness in the kidney region?

These symptoms suggest weak kidneys.

If so there is danger in delay. Weak kidneys get fast weaker. Give your trouble prompt attention.

Doan's Kidney Pills are for weak kidneys.

Your neighbors use and recommend them.

Read this Stanford testimony.

"A few years ago I was down with my back and I couldn't stoop or lift," says J. T. Spoonamore, of Whiteley Ave., Stanford. "The kidney secretions were too frequent in passage and caused me a great deal of annoyance. I tried a dozen different remedies, but didn't get any benefit until I got a supply of Doan's Kidney Pills. By the time I had finished two boxes, I was cured. Kidney troubles have never bothered me since. Others of my family have also used Doan's Kidney Pills and have found them satisfactory."

Write 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Spoonamore had. Foster-Milburn Co., Props., Buffalo, N. Y. 29-1

## What Cures Eczema?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of oil of Wintergreen, as compounded in D. D. D. Prescription, can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription. Drop into our store today, just to talk over the merits of this wonderful Prescription.

Bleucher 46158, record 2:29 1-4, trial mile 2:14 3-4, half in 1:06, last quarter in 32 seconds, is a handsome seal brown horse, and will weigh 1100 pounds. He greatly resembles his good sire Silent Brook and is out of Clay, by the great Futurity sire Moko.  
Foreign demand will exhaust the supply and we may expect better prices for our horses in the future. Our advice to mare owners is to breed their mares and to breed them to stallions of merit and proven worth as sires. Bleucher is just the type to produce the colts that will supply the demand. His colts have proven fine, with nice head and neck and plenty of bone and conformation.  
This great trotting stallion will make the season of 1915 at my stable in Lancaster, Kentucky, at \$20.00 to insure a living colt. I am prepared to care for mares at 10c per day. W. B. BURTON, Lancaster, Ky.

## ROWLAND PEAVINE

Registered

Chestnut stallion, star and snip, foaled May 14, 1912. Sired by Rex Peavine 1796, by Rex McDonald 833, by Rex Denmark 840. First dam Bourboniste 9297, (full sister to Bourbon's Best) by Bourbon Chief 976, by Harrison Chief 1606, by Clark Chief 89 (Sims 89), Second dam, the Madison Square Garden champion, Judy Oliver 6407, by Red Cloud 2197, Indian Chief 1718, Third dam by Wilson's King 2197, Fourth dam, daughter of Sim's Clark Chief 2575.

This colt is deserving of careful consideration to the breeders of saddle mares, coming from a family of show horses, and a show horse himself, having defeated such colts as Richard Couer De Leon, which sold for \$1,500 and other good ones. Will stand at \$15 to insure a living colt. It would be judicious to take advantage of this low price, for the chances are that his fee will be higher next season.

Be sure and take a look at him next Monday, horse show and court day. Will make the season to a limited number of approved mares at Nunneley's stock yards, Stanford.

## ALL PEAVINE 4092

Rex Peavine 1796—Lucy Wells 6404, by Peavine 85  
Champion Sire of World at Eight Years

All Peavine needs no introduction to the people of Kentucky. I have won more big events with his produce than any other firm or individual in Kentucky. He sired the champion colt and three-year-old stallion at the Kentucky State Fair 1914. Champions from the youngest to the oldest of his produce. I have sold six of his colts and fillies from fifteen to two months old for an aggregate sum of \$3,455.

FEE—\$25.00 TO INSURE A LIVING COLT

## SHIEK

Shiek was the champion pony stallion of Kentucky at the Blue Grass Fair, at Lexington and Kentucky State Fair, at Louisville in 1913 and 1914. Big enough to sire a useful pony. Can do more under saddle and to harness than any pony in Kentucky.

## KENTUCKY GENTLEMAN

No. 5167 A. S. H. R.

is a handsome chestnut with beautiful mane and tail; is 15.3 hands and will weigh about 1,150 pounds; has the very best of feet and legs; good flat bone, broad sloping shoulders; short, stout back and a horse of the most wonderful endurance. He is an impressive horse, standing still and is more so in motion; sets himself just right, never touches himself any where and has exceptional speed at the rack and trot. He was one of the most successful horses shown last year. He was shown at three fairs and won the combined stallion class at each place.

Kentucky Gentleman has the qualities that are necessary to the production of a perfect horse—color, size, style, speed, action, and endurance, and ideal breeding. He is sired by Chester Peavine 3184, by Rex Peavine 1796, by Rex McDonald 833. Dam, Flora Carter 8419, by Red Squirrel 53, by Black Squirrel 58, by Black Eagle 74, by King William 67.

GRACE C., 7781

This grand young mare is a sister of Kentucky Gentleman

In offering the services of this grand young horse to the public, I feel that I am giving them their money's worth. Give him the same class of mares and I do not believe there is a horse in the State that will beat him producing high class colts, (no matter how high the service fee.) Breeding to Kentucky Gentleman is no longer an experiment. Bring him a good mare and he will get you an extra good colt. Do not take your mares thirty or forty miles to breed when you have just as good a horse right at home and for less than half the money.

Kentucky Gentleman will make the season at my home, one mile from Stanford, on the Danville pike at \$20.00 to insure a living colt. Money due when colt is foaled. Care taken to prevent accidents, but not responsible should any occur.

Voltaire 55140

## Voltaire 55140

There is no doubt about Voltaire being the best breeding as well as the best bred big horse in the county and possibly in the State. Each time he has been shown he has easily won first premium and his colts have won first every year they have been shown. There has been more demand for big horses within the last year than was ever known before. Quite a good many farmers have almost stopped raising horses and that is sure to make a demand for them. Nearly every farm paper you see advises the farmer to raise bigger and better horses. I think right now is the farmer's opportunity. Bring your good mares to Voltaire and you are sure to get a good colt. He will make the season at my farm, one mile from Stanford on the Danville pike at \$15.00 to insure a living colt. Money due when colt is foaled.

I will also stand a good young Jack. He is a heavy big boned fellow, and I think will make a good breeder. Will stand at \$10.00 to insure.
